The 2021-2022 edition of the Veterans Benefits Manual has been thoroughly updated with the important developments in veterans' law over the past year. The most significant new information in the recent edition of the Manual has been about the Veterans Appeals Improvement and Modernization Act of 2017 (AMA), which took effect on February 19, 2019. There is updated information in the 2021-2022 edition of the Manual about how the new modernized review system has been operating in practice. Most of that information appears in Chapters 12, 13, and 16. Highlights of the other updates include advocacy essentials such as: New advice for deciding which options to pursue to overcome BVA decisions denying legacy claims and claims subject to the new AMA system (Sections 14.1.1 and 14.1.2); Discussion of the recent changes to VA policies and procedures due to the COVID-19 pandemic (throughout Manual); A new section about how the BVA conducts virtual hearings (Section 13.4.3); New sections explaining why thousands of Vietnam veterans and their survivors are now entitled to millions of dollars in additional retroactive compensation for Agent Orange-related diseases (Sections 8.10, 8.11); Discussion of the VA's revisions

to the disability rating schedule for musculoskeletal conditions (Section 5.2.9); A new section discussing the enhanced hearing procedures adopted by the Army Discharge Review Board and the thousands of Army veterans now entitled to have the Board reconsider their less than Honorable Discharges under more liberal review standards (Section 21.3.5); A new section about how military retirees become entitled to retroactive military retired pay as a direct result of a VA decision granting retroactive VA benefits (Section 8.12); Updated analysis of the rules governing entitlement to retroactive benefits based on service department records being added to the VA claims file after a final claim denial (Section 8.8.9); New guidance regarding entitlement to accrued benefits to reimburse individuals who bore the expense of a veteran's last illness or burial (Section 7.3.1.1.2); and Updates on eligibility for VA's Comprehensive Assistance for Family Caregivers and advocacy tips for those applying for monthly stipends (Section 10.13). Updated information about the duty to assist activities transferred from the Joint Services Records Research Center to the VA Records Research Center (Section 18.4); Advocacy tips for appealing BVA decisions that violate or improperly rely on provisions of the VA Adjudication Procedures Manual M21-1 (Section 14.5.9); Discussion of the recent case law on extraschedular disability ratings and schedular ratings

for ankylosis of joints (Sections 5.3 and 5.2.1.6); Based on the results of a third survey, the engineering and programming characteristics of 222 different electronic digital computing systems are given. The data are presented from the point of view of application, numerical and arithmetic characteristics, input, output and storage systems, construction and checking features, power, space, weight, and site preparation and personnel requirements, production records, cost and rental rates, sale and lease policy, reliability, operating experience, and time availability, engineering modifications and improvements and other related topics.
