NOW A NEW YORK TIMES BESTSELLER You've likely heard of the Westboro Baptist Church. Perhaps you've seen their pickets on the news, the members holding signs with messages that are too offensive to copy here, protesting at events such as the funerals of soldiers, the 9-year old victim of the recent Tucson shooting, and Elizabeth Edwards, all in front of their grieving families. The WBC is fervently anti-gay, anti-Semitic, and anti- practically everything and everyone. And they aren't going anywhere: in March, the U.S. Supreme Court ruled in favor of the WBC's right to picket funerals. Since no organized religion will claim affiliation with the WBC, it's perhaps more accurate to think of them as a cult. Lauren Drain was thrust into that cult at the age of 15, and then spat back out again seven years later. **BANISHED** is the first look inside the organization, as well as a fascinating story of adaptation and perseverance. Lauren spent her early years enjoying a normal life with her family in Florida. But when her formerly liberal and secular father set out to produce a documentary about the WBC, his detached interest gradually evolved into fascination, and he moved the entire family to Kansas to join the church and live on their compound. Over the next seven years, Lauren fully assimilated their extreme beliefs, and became a member of the church and an active and vocal picketer. But as she matured and began to challenge some of the church's tenets, she was unceremoniously cast out from the church and permanently cut off from her family and from everyone else she knew and loved. **BANISHED** is the story of Lauren's fight to find herself amidst dramatic changes in a world of

extremists and a life in exile. From the birth of Islam in the seventh century to the voyages of European exploration in the fifteenth, Africa was at the center of a vibrant exchange of goods and ideas. It was an African golden age in which places like Ghana, Nubia, and Zimbabwe became the crossroads of civilizations, and where African royals, thinkers, and artists played celebrated roles in the globalized world of the Middle Ages. Drawing on fragmented written sources as well as his many years of experience as an archaeologist, the author reconstructs an African past that is too often denied its place in history. He looks at ruined cities found in the mangrove, exquisite pieces of art, rare artifacts like the golden rhinoceros of Mapungubwe, ancient maps, and accounts left by geographers and travelers. Even well-meaning fiction writers of the late Jim Crow era (1900–1955) perpetuated racial stereotypes in their depiction of black characters. From 1918 to 1952, Octavus Roy Cohen turned out a remarkable 360 short stories featuring Florian Slappey and the schemers, romancers and ditzes of Birmingham's Darktown for *The Saturday Evening Post* and other publications. Cohen said, "I received a great deal of mail from Negroes and I have never found any resentment from a one of them." The black readership had to be satisfied with any black presence in the popular literature of the day. The best known white writers of black characters included Booth Tarkington (Herman and Verma in the *Penrod* books), Irvin S. Cobb (Judge Priest's houseman Jeff Poindexter), Roark Bradford (Widow Duck, the plantation matriarch), Hugh Wiley (Wildcat Marsden, the war veteran who traveled the country in the company of his goat) and Charles Correll and Freeman Gosden (radio's Amos 'n' Andy). These writers deservedly declined in the civil rights era, but left a curious legacy that deserves examination. This book, focusing on authors of series fiction and

particularly of humorous stories, profiles 29 writers and their black characters in detail, with brief entries covering 72 others. After an initial review of genetic and developmental factors affecting pig behaviour, the book assesses ways of optimising pig welfare at differing production stages from breeding through to slaughter. The final parts of the book discuss issues such as castration and tail biting as well as ways of measuring and monitoring welfare. The story of how a young Southern girl who was raised on a pig farm became one of the most influential and inspiring people in the world. We all know Oprah Winfrey as a talk-show host, actress, producer, media mogul, and philanthropist, but the "Queen of Talk" wasn't always so fortunate. She suffered through a rough childhood and went on to use her personal struggles as motivation. Oprah's kindness, resilience, and determination are just some of the many reasons why her viewers--and people all around the world--love her. The richest African American person of the twentieth century, Oprah is often described as the most influential woman in the world. HOW DO LANGUAGES LIVE AND DIE? WHAT ROLE DOES TRANSLATION PLAY IN HELPING LANGUAGES TO THRIVE? ARE POLYGLOTS VIEWED WITH SUSPICION, GIVEN THE LINKS BETWEEN LANGUAGE AND IDENTITY? IS THE MAINTENANCE AND REVIVAL OF FLAGGING LANGUAGES WORTH THE EFFORT? CAN A LANGUAGE REMAIN 'PURE'? IF LANGUAGE PATTERNS CONSTANTLY ALTER, WHAT DOES THIS SAY ABOUT IDENTITY?

Multilingualism is everywhere in a globalized society. This book looks at the origins and development of languages, at language contact and competition, and at the emergence and the consequences of multilingualism. Edwards also examines lingua francas, pidgins, creoles and artificial languages as a part of a broader snapshot of the social life of language. This compelling short introduction is required reading for all entry-level students of multilingualism, and a primer for language lovers in general. The language we use forms an important part of our sense of who we are - of our identity. This book outlines the relationship between our identity as members of groups - ethnic, national, religious and gender - and the language varieties important to each group. What is a language? What is a dialect? Are there such things as language 'rights'? Must every national group have its own unique language? How have languages, large and small, been used to spread religious ideas? Why have particular religious and linguistic 'markers' been so central, singly or in combination, to the ways in which we think about ourselves and others? Using a rich variety of examples, the book highlights the linkages among languages, dialects and identities, with special attention given to religious, ethnic and national allegiances. The central concern in this book is the relationship between language

and group identity, a relationship that is thrown into greatest relief in ‘minority’ settings. Since much of the current interest in minority languages revolves around issues of identity politics, language rights and the plight of ‘endangered’ languages, one aim of the book is to summarise and analyse these and other pivotal themes. Furthermore, since the uniqueness of every language-contact situation does not rest upon unique elements or features – but, rather, upon the particular weightings and combinations of features that recur across settings – the second aim here is to provide a general descriptive framework within which a wide range of contact settings may be more easily understood. The book thus begins with a discussion of such matters as language decline, maintenance and revival, the dynamics of minority languages, and the ecology of language. It then offers a typological framework that draws and expands upon previous categorising efforts. Finally, the book presents four case studies that are both intrinsically interesting and – more importantly – provide specific illustrations of the generalities discussed earlier. The study of contemporary fiction is a fascinating yet challenging one. Contemporary fiction has immediate relevance to popular culture, the news, scholarly organizations, and education – where it is found on the syllabus in schools and universities – but it also offers challenges. What is ‘contemporary’? How do we track cultural shifts and changes? The Routledge Companion to Twenty-First Century Literary Fiction takes on this challenge, mapping key literary trends from the year 2000 onwards, as the landscape of our century continues to take shape around us. A significant and central intervention into contemporary literature, this Companion offers essential coverage of writers who have risen to prominence since then, such as Hari Kunzru, Jennifer Egan, David Mitchell, Jonathan Lethem, Ali Smith, A. L. Kennedy, Hilary

Mantel, Marilynne Robinson, and Colson Whitehead. Thirty-eight essays by leading and emerging international scholars cover topics such as: • Identity, including race, sexuality, class, and religion in the twenty-first century; • The impact of technology, terrorism, activism, and the global economy on the modern world and modern literature; • The form and format of twenty-first century literary fiction, including analysis of established genres such as the pastoral, graphic novels, and comedic writing, and how these have been adapted in recent years. Accessible to experts, students, and general readers, *The Routledge Companion to Twenty-First Century Literary Fiction* provides a map of the critical issues central to the discipline, as well as uncovering new perspectives and new directions for the development of the field. It is essential reading for anyone interested in the past, present, and future of contemporary literature. A list of recommended readings for children, intended for home use and arranged by age, not school grade. Included in the list are fairy tales that are free from horrible happenings. The Statesman is a difficult and puzzling Platonic dialogue. In *A Stranger's Knowledge* Marquez argues that Plato abandons here the classic idea, prominent in the *Republic*, that the philosopher, qua philosopher, is qualified to rule. Instead, the dialogue presents the statesman as different from the philosopher, the possessor of a specialist expertise that cannot be reduced to philosophy. The expertise is of how to make a city resilient against internal and external conflict in light of the imperfect sociality of human beings and the poverty of their reason. This expertise, however, cannot be produced on demand: one cannot train statesmen like one might train carpenters. Worse, it cannot be made acceptable to the citizens, or operate in ways that are not deeply destructive to the city's stability. Even as the political community requires his knowledge for its preservation, the genuine statesman must remain a stranger to the city. Marquez shows how this impasse is the key to understanding the ambiguous reevaluation of the rule of law that is the most striking feature of the political philosophy of the Statesman. The law appears here as a mere approximation of the expertise of the inevitably absent statesman, dim images and static snapshots of the clear and dynamic expertise required to steer the ship of state across the storms of the political world. Yet such laws, even when they are not created by genuine statesmen, can often provide the city with a limited form of cognitive capital that enables it to preserve itself in the long run, so long as citizens, and especially leaders, retain a "philosophical" attitude towards them. It is only when rulers know that they do not know better than the laws

what is just or good (and yet want to know what is just and good) that the city can be preserved. The dialogue is thus, in a sense, the vindication of the philosopher-king in the absence of genuine political knowledge. This title explores the modern phenomenon of people being "canceled," or punished in public discourse for something they've said or done. To some, cancel culture helps everyday people speak truth to power, but to others it is simply a way to bully online without creating real change. Features include a glossary, online resources, source notes, and an index. Aligned to Common Core Standards and correlated to state standards. Essential Library is an imprint of Abdo Publishing, a division of ABDO. *International Public Relations: Perspectives from deeply divided societies* is positioned at the intersection of public relations (PR) practice with socio-political environments in divided, conflict and post-conflict societies. While most studies of PR focus on the activity as it is practiced within stable democratic societies, this book explores perspectives from contexts that have tended to be marginalized or uncharted. Presenting research from a diverse range of societies still deeply divided along racial, ethnic, religious or linguistic lines, this collection engages with a variety of questions including how PR practice in these societies may contribute to our understanding of PR theory building. Importantly, it highlights the role of communication strategies for actors that still deploy political violence to achieve their goals, as well as those that use it in building peace, resolving conflict, and assisting in the development of civil society. Featuring a uniquely wide range of original empirical research, including studies from Israel/Palestine, Mozambique, Northern Ireland, former Yugoslavia, former Czechoslovakia, Spain, Malaysia and Turkey, this groundbreaking book will be of interest not only to scholars of public relations, but also political communication,

international relations, and peace and conflict studies.
